To whom it may concern,

It's my pleasure to recommend Isabelle Dorion (Tradimension).

My name is Sylvie Hergault, and I am owner and translation project manager at r'Go Translations, a translation agency specialized in IT. I'm collaborating with a variety of translators, including Isabelle Dorion. Since October 20224 she worked for me on several translation projects in the field of developing tools, all related to documentation materials. Please find the details below:

Translations:

- 4000 words
- XLIFF format with numerous tags, these files require careful handling of code, features, and specific non-translatable text.
- Field: API documentation for a development software

She is a valuable and reliable translator. She always delivers on time and provides relevant and insightful comments. She has a deep knowledge of IT and she demonstrates excellent writing skills.

If you'd like more information, I'd be happy to expand on my experience working with Isabelle.

Sincerely,

Sylvie Hergault, Translation Manager
